FORMULA

DESIGN:
BROGLIATOTRAVERSO

The perfect equation for a new vision of the office. Immediate. Simple. Modular. Formula is an adaptable system for every operating situation with a small number of components. A simple set of noise reducing panels, modular soft seating and accessories allow to find infinite solutions to approach every office concept.

FORMULA PANEL
MODE: 1X1

FORMULA PANEL
MODE: 1X3

PANEL

The panels are composed of a light wooden fibre, upholstered with a 100% woolen felt. Available in two sizes, they are modular thanks to simple linking devices. A third type of panel is usable combined with the desk.

FORMULA PANEL
MODE: 1X2

FORMULA PANEL
MODE: 1X4

Formula system

- FORMULA ADD-ON CLOTHES HOOK 1
- FORMULA ADD-ON POCKET 2
- FORMULA ADD-ON SHELF 3
- FORMULA ADD-ON CLOCK 4
- FORMULA ADD-ON VASE 5

SEAT

Formula also offers a soft seating module in order to organize the spaces with the possibility to create different layouts, with comfort and a pinch of irony. A "seat" is composed of a plywood structure, padded and upholstered. Available with a single colour or a quilted bi-colour finishing.

TABLE

The simple design of this table, which consists of 2 steel plates and 4 wooden legs, can be incorporated into any of Formula's office solutions.
